Quinine and Arsenic

Form the basis of many of the ague remedies in the market and are the last resort of physicians and people who know no better medicine to employ for this distressing complaint. The effects of either of these drugs are destructive to the system, producing head ache, intestinal disorde vertigo, dizziness, ringing in the ears, and de-pression of the constitutional health. Ayer's Ague Cure is a vegetable discovery, containing neither quinine or arsenic, nor any deleterious ingredient, and is an infallible and rapid cure for every form of fever and ague. Its effects are permanent and certain, and no injury can result from its use. Besides being a positive cure for fever and ague in all its forms, it is also a superior remedy for liver complaints. It is an excellent tonic and preventive, as well as cure, of all com plaints peculiar to malarious, marshy and mias matic districts. By direct action on the liver and biliary apparatus, it stimulates the system to vigorous, healthy condition. For sale by all

Crossing the Desert

Is generally an eventful episode in life; whether i e asa pilgrim to worship the prophet's shrine a Mecca, or as a part of a caravan of merchants The dangers of the destructive simoon, attacks of predatory robbers and the agony of dying from thirst are dissipated on reaching one of those gardens of the desert, an oasts. Partaking of that which recuperates, they meet their futur difficulties with recruited strength and renewed energies. So with modern life, dangers from disease threaten all humanity, but if we make use of a remedy which alleviates acute attacks of sickness, thus preventing their becoming chronic we shall realize the necessary rest and refresh ment in traveling life's desert which has been discovered in the HOME STOMACH BITTERS.

Very Droll to Think Of.

If not above being taught by man, use Dob bins's Electric Soap next wash day. Used without any wash boiler or rubbing board, and used differently from any other soap ever made It seems very droll to think of a quiet, orderly two hours light work on wash day, with no heat and no steam, or smell of the washing through the house, instead of a long day's hard work; but hundreds of thousands of women from Nova Scotia to Texas have proved for themselve that this is done by using Dobbins's Electric Soap. Don't buy it, however, if too set in your ways to use it according to directions, that are as simple as to seem almost ridiculous and so easy that a girl of twelve years can do a large washing without being tired. It positively will not injure the finest fabric, has been before the public for fifteen years, and its sale doubles every year. If your grocer does not keep it, he will get it, as all wholesale grocers keep it.

School Report

The following is the report of the at-tendance and deportment in the Lieurance district, No. 47, for the month end ing May 21st 1880; number of pupils enrolled, 32; attendance per cent. of en-rollment, 91; average daily, 21; number of cases of tardiness, 16.

The following are the names of thos neither absent nor tardy with their stand-ing in deportment: Lila Crist, 90; Phemie Crist, 90; Mary Donica, 100; Sophy Donica, 100; Mary Harvey, 95; Charley Hoffman, 100; Two others were present 100 per cent. of the time with once tardy and five others were present 95 per cent. of the time. W. F. YOUNG, Teacher.

St. Nicholas for June, 1880, has an outdoor, summer-y character sustained throughout, in the poems, the prose, and the seventy-two pictures. Among its striking features is an account, by Olive Thorne Miller, of the Children's Aid Society's delightful charity, "The Summer Home" for your city children, at Bath, L. I., with seven pictures made by Jessie Curtis from sketches taken on the spot. Another attractive paper is an article written and copiously illustrated by Mr. Danial C. Beard, clearly explaining to your people "How to Camp Out" cheaply, easily, and comfortably. There are long installments of the two serials,—"Jack and Jill," by Louisa M. Alcott, with two fine illustrations by Dielman; and "The Fairport Nine" Noah Brooks, with pictures by Redwood

The catholicity of Scribner's Monthly is well illustrated by the June number, which must certainly appeal to a wide range of literary tastes. For lovers of light reading there are papers on "Rocky Mountain Nights" (both poetical and practical; "Spring Hereabouts," that is, in New York and suburbs, with illustrations; "Thackeray as a Draughtsman," with over thirty reproductions of the novelist's sketches; "Life in Florence," sprightly paper from an American point of view; "My Friend, Mrs. Angel," a humorous story of Washington life. The current political interest is appealed to by H. J. Raymond's journal of "The Philadelphia Convention of 1866," and Henry King's picturesque sketch of "A Year of the Exodus in Kansas," and indirectly by Principal Grant's third pa per on "The Dominion of Canada," dealing with its political and social history in an interesting and able manner.

The Topeka Capital, in a labored through adroit article, says, in substance, that Gov. St. John, being a temperance man, is the only candidate the Republican party can nominate without a con cession to the "whisky interests." this is the paper that has opposed Gen. Grant for President because of the alleged implied admission that there was no other worthy Republican in the party The Journal urged the nomina tion of Gen. Grant because we consider him the best man under the circumstances for the place, and the Capital has a right to support St. John for the same reason; but it has no right to debar other gentlemen from participation in the race, and only injures itself and its favorite candidate by smirching their characters by such inuendoes as the above. We can name a hundred Republicans in Kansas, any one of whom is St. John's equal in all the better elements of man-hood, and just as much entitled to the position for the next term as he is. If the Capital thinks it can bulldoze such men as T. C. Henry, John A. Martin, John C. Carpenter and others off the track, it may bye and bye wake up to the fact that it was just a little too prev ious in its conclusions .- [K. C. Journal.
